**01 About the Tzimanious game**

**02 Applying Tzimanious in classroom**

## Scope

The aim of the game is to help children understand ways to protect their personal data in an attractive way

The game must be used in combination with lecturing about personal data.

## Game Elements

**2 – 6 players**

**10+ years old**

**Duration: 45'**

**6 pawns**

**1 die**

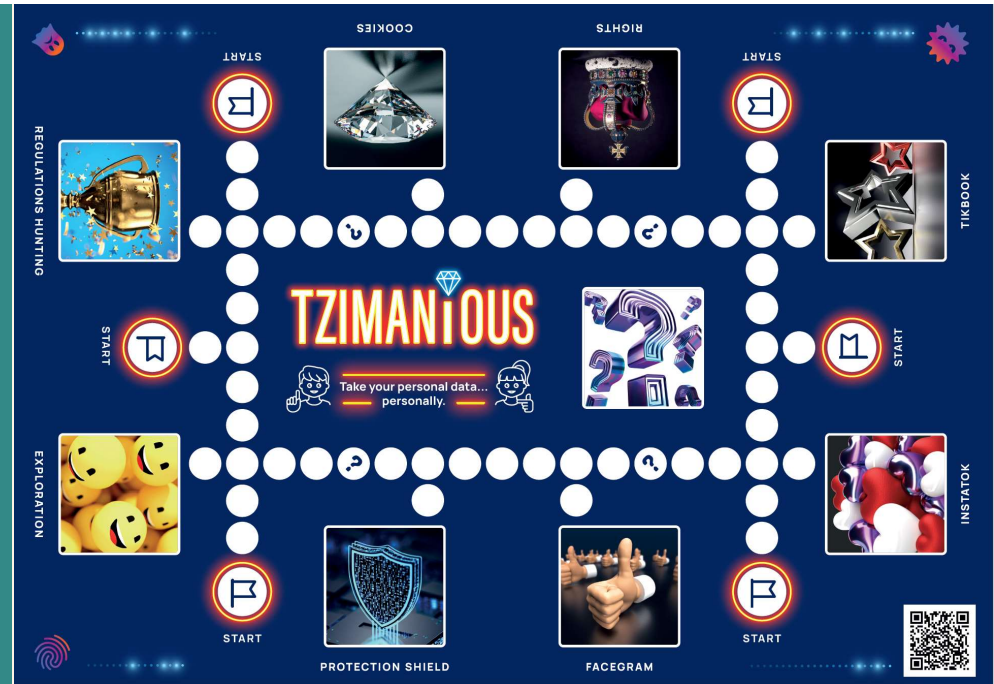

**notebook**

# Flow of the game

The objective of each player is to navigate their pawn through all eight game stations, answering the questions correctly at each station. Players can earn diamonds for each correct answer.

Additionally, there are bonus questions at certain spots on the board, offering extra diamonds.

The winner is the player who successfully completes all stations and collects the most diamonds.

TOTAL DIAMONDS

Each player is given a notebook.

The Game starts

Players decide who starts (alphabetically or with the highest roll) and then clockwise

The first player rolls the die and moves his pawn as many spaces as the number he has rolled.

If the player moves the pawn to a station in the game....

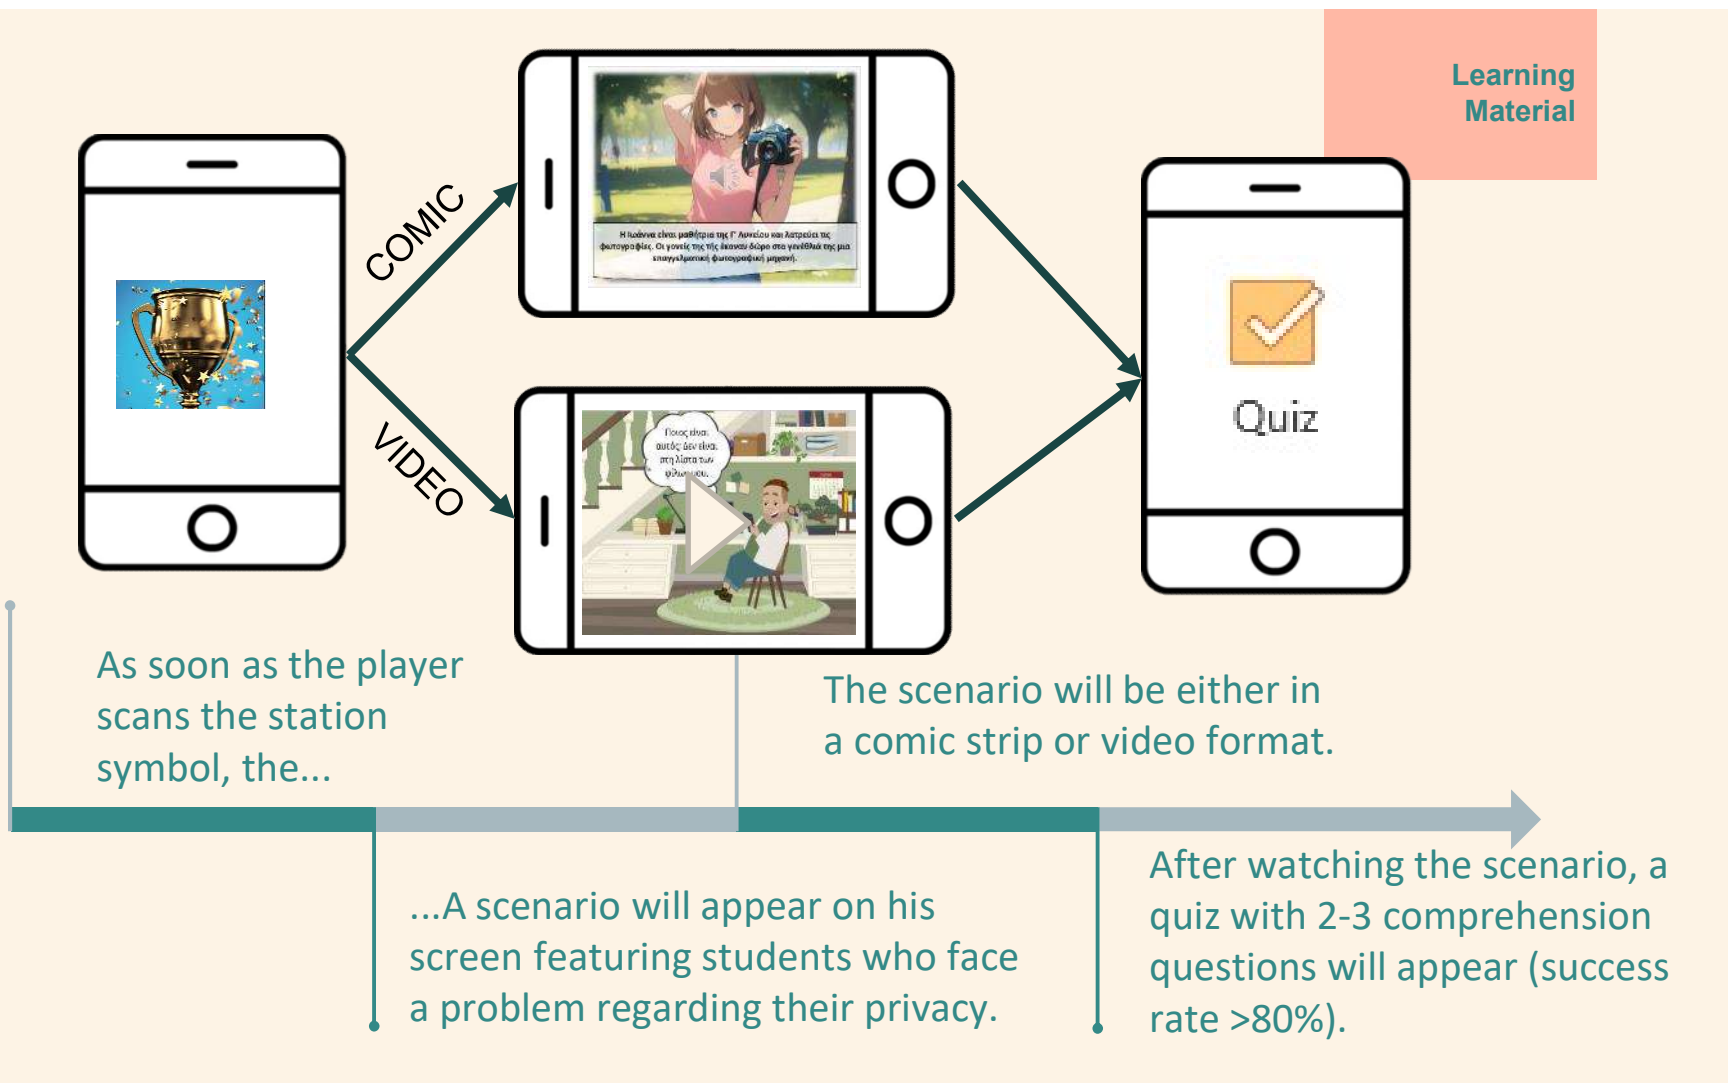

#### CARDS

Print the page and cut the cards.  
When you reach a server or mystery circle,  
scan the corresponding card with your  
device to continue.

**Scans the station  
symbol with the mobile  
device.**

## Personal Data Protection

**COOKIES**

The Notebook

Each time the player  
Wins a diamond,  
check the  
corresponding field in the  
notebook  
TZIMANIOUS.

**S/he scans with his device  
the mystery symbol at the  
bottom right of the  
dashboard.**

# How lucky can a player be?

Mystery spot

Will s/he win a diamond outright?

Will s/he miss his turn?

Will s/he go to any station he wishes to win his diamond?

Will s/he give one of his diamonds to another player?

Will s/he correctly answer a question with a bonus diamond?

Or will s/he get the answer wrong and lose the diamond?

TOTAL DIAMONDS

The player notes his bonus diamonds in the notebook.

End fo the game

### ● Game Ends

The game ends either when all players have collected the diamonds from all eight (8) stations (slow version) or when one of the players manages to collect the diamonds from all 8 stations first (fast version).

### ● Game Winner

- Slow version: The player who has collected the most bonus diamonds.
- Fast version: The player who first collected the diamonds from all 8 stations.
